IF The steamer Perry resumed her trips between this place and Providence yesterday morning. She has been most thoroughly repaired, painted and put in perfect order, and was never in such good can ition. Some excellent improvements have been made, such as the casing in of the engine, making a new stair-way to the promenade deck from the main deck, directly apposite the Ladies Saloon, enlarging the Clerk's this c. &c. The Perty is now one of the best and awiflest boats on any route.-She is still communded by Capt. George W. Woolsey, a universal favorite; and Mr. Charles L. "We congratulate Rhode Island that so ble and so honorable a manus William Beach Lawrence has become one of her citizens by adoption; and are confident that the pure democratic seed, which he will sow on her soil, will enlighten, liberalize, and polish, the rude escendants of Roger Williams." We were somewhal at less to under-

fand by what process Mr. Lawrence aland attained his citizenship in Rhode land. We knew that it could not be assures ve that his residence dates from the Little of April hast. It is by the "acoption" of the Democratic party. If they "adopt" a man we suppose that makes him a citizen, according to their construction of the constitution, if indeed they condescend to construe an inetrument which they hope so soon to aholish.

And Mr. Lawrence is going to "liberalize and polish the rude descendants of Roger Williams," is he? It is very kind of him. The people of Rhode Island are somewhat "rude," we will not deny; quaint, entiquated; and peculiain some of their customs, one of which is to prefer Rhode Island men to fill their places of honor and trust. Mr. Lawrence is a very polished man, well educated, of fine abilities, and of a personal character against which we have not a word to say. In everything except his ignorance of Rhode Island stitutions, habits and feelings, and in his want of Ithode Island sympathies, we dare say he would make a very good Licutenant Governor. But somehow we like this "rude," hearty character of which our Democratic friend of the New York Atlas complains, and which he says will be corrected and poliched ly a graduate of Tammany Hall, who tens come here tenlo ighten and "liberanze" co. It may be very bad taste in us, but we confess that we prefer the rudeness and roughness of the antive material to all the foreign polish that it is capable of receiving; and we would radie; have for Governor seme honest, intelligent, even although somewhat woude " Rhode Island span, than the most polished New York lawyer that ever male a speech in Terman, Hall .- Prov. Journal.

RESEONSE LLTT FOR BAGGAGE. -- A hill has been introduced into the Schale of New York providing that when the laggage of tever is travelling on signiboors i as been elecked, and is not de-Lected on being called for by the party hadding the check he may be a competial witness in any suit brought by Lim for the loss of his baggage, to prove its contents and value.

RETRADEDINARY SCENE IN A CHURCH! On the 9th of Feb., the village of Reverby, in Lincolnshire, was thrown into commotion by nothing less than the forcible expulsion of the minister while reading the service. The Rev. Andrew Veitch was appointed (16 or 17 years tince) to the curacy, during the minority of the present lord of the manor -between Mr. Stunkope (ford of the manor) and Mr. Veitch, the former, some time ago, gave notice to the latter that Le should supersode him in his curacy. Mr. Veitch disputed the right and pouer to do so, and kept on his manistrations hat hist week a new curate (Rev. C. Bowen) was introduced into the village und on Saturday night last, in order that he should get possession of the church on Sunday, a guard was placed around the edifice, and all intruders were kept at a distance. On Sunday morning, some time be-

Fire the service-hour, Mr. Veitch prerested bimself at the doors, but was releved admittance. He waited till the bell rang for service, when he entered with the congregation (he being dressed in full cunonicule,) and proceeded towands the reading-desk. That and the pulpit were guarded, as was also the communion table. Mr. Veitch then took his place on the steps of the altar. and when the belt had ceased ringings he commenced the service. At the same time Mr. Bowen began to read the rervice from the reading-desk, and each was reading at the same time .-One of the churchwardens approached Mr. Vench and told him to desict but he continued the service; upon which the churchwarden told him if he proceeded to disturb the congregation, he should remove him by force, Mr. Veitch erill continued his reading, whereupon he was pushed off the steps, and forced along the nisle of the church doors, he continuing to read the service until he was ejected from the edifice. This disgraceful scheme, as may be supposed, caused the utmost excitement among the congregation. It is expected the uffair will lead to litigation as well as interference on the part of the bishop .-Lord n paper,

Тик Азвізтант Алпермен.-- We are pleased to see that George W. Gibbs, Esq., is suggested as a candidate to fill the vacancy in the Board of Assistant Aidermen. No hetter choice could have been made. Air Gibbs inherits the spirit as well us blood of his father, the ex-Governor of Rhode Island. He is energetic in business, faithful to every trust, and hy nature, education and habit, an honest man. We have, therefore, no besitation in saying that this gentleman, if elected, will fill the sent to which he has been nominaled, with credit to himself, and to the satisfaction of citizens generally.

. In speaking thus frankly of Mr. Gibbs, we feel the importance of selecting and supporting a man for office, who, day by day, in his inforceouse with all men, exhibits those traits of character which are so well calculated to command the respect and confidence of those who know him. San Francisco Picayune.

We notice by San Francisco papers of subsequent date, that Mr. Gibbs was elected by a large majority in each ward.

IMPORTANT GEOGRAPHICAL DISCOVERY At a late meeting of the Royal Geographical Society at London, it was announced that the Rev. D. Livingstone, of the London Missionary Society, had discovered another large lake in South Africa, about 200 miles north of Lake Ngami, which he recently made known to the world. The new lake contains several large islands, and is connected with the Ngami by a rapid stream called the Teage. At the date of the last advices, Mr. Livingstone was proceeding northward. If he carries out his plan of exploration, some important questions in African Geography will be solved.

A gentleman of Mobile, Ala., has a ring which was thrown up by a party of laborers, who were exeavating a piece of ground at Coosada, Antauga county. It is said to be composed of a light met al, so hard that no impression could be made upon it by cutting. It is massive, shaped like ordinary rings worn by gentlemen, and instead of a stone set, it has a flattened equare surface, on which are engraved a skull and cross boncs. It was found buried 12 or 14 feet under ground; and is supposed to have belonged to one of De Solo's party ; during the wanderings in that region in 1538-9.

OF The Maryland stone for the Washington Monument has been completed. It is 6 feet long, 3 broad, and 15 inches thick. The following is the motte: - Maryland-The memorial of her regard for the Father of his Country, and of her children's habitud and immovable attachment to the American Union."

57 Our very attentive and obliging correspondent in Worren, Chas. J. Burr, informs or that the body of a man was lound washed ashore in that lown, on Sunday afternoon last. It was recognized as that of Joshua Moron, a resident of Swanzey, Mass. A coroner's inquest was held yesterday morning, but no verdict had been rendered at 12 o'-In consequence of a minunderstanding clock. An examination had shown that no hones were broken, nor were there any unicks of violence on the body. Between four and five dollars and a porket knife were found in his speekers. The deceased has been missing since the middle of December last, and is supposed to have fallen overboard about that time. He was of intemperate habits and about 55 years of age.-Prov. Post.

NEW APPRAISER'S BOLL, &c. -- The bill, called "Hunter's Bill," which passed both Houses of Congress, provides for four travelling appraisers, to be appointed by the President, and that the value of goods be taken as from the place and time of exportation. That is to eay, the hill ratifies and enacts the treasury circulars, and re-establishes the revenue laws as under the tatiff of 1846, which have just been, in some degree, nullified in the Supreme Court .-These general uppraisers have a salary of \$2,500 cach, and travelling expenses The other appraisers, by a provision in the Civil and Diplomatic Bill, also have their sularies increused. So also the deputy collectors. The increased pay is to each \$500 per annum.

WILD WOMAN CAUGHT.-The fomous Wild Woman of the Navidad has been caught. A party of honters who were out huntley deer, came upon the camp of this singular creature and captured her. She is an African negrees, who fled to those wilde when the settlements were deserted just after Fannin's defeat, and she has been wandering like an Ourang Outning for a period of about fifteen years. Her food during that period consisted of acorns, nuls and other wild fruits, with such other food as she could occasionally steal from the neighboring settlements. She cannot the value of his pew, which had been speak any English, but converses freely taken from him. It appeared that the with the Africans on the neighboring plantations. Thus is solved the mystery that has hitherto given a romantic in terest to the story of the Wild Woman of the Navidad .- Houston Telegraph, 21st ut.

KIDNAPPING SLAVE CAREIN BALTI-SORE.—The Governor of Pennsylvania, has sent a requisition to the Governor of Maryland, for James S. Mitchell, of Cecil county, charged with kidnapping a free negro, and carrying him to Maryland. Mitchell's slave woman ran away five years ago, and during her absence had a child. The agent of the owner had secured her and the child, and brought them back. The Governor of Pennsylvania considers the child free born. Gayerner Lowe refuses to deliver Mitchell as a fugitive, and has written a long letter to the Governor of Pennsylvania, sustained in his opinion by the Attorney General.

By a recent set of Parliament, the English government has made itself repossible for all moneys paid into the avings banks by depositors.

Secr-Destruction .- We regret to be called upon to state, that Mr. Robert Troup Paine, of the Senior class of Rarvard College, committed suicide on Saturday in his room in Holworthy Hall, at Combridge. His body was not discovered till late on Sunday evening. He left a note stating that he had taken was his own free act. He was undoubtedly insanc.

The deceased was the son of Professor Martyn Paine of New York. He was twenty-one years of age, and was a person of fine talents. From appearances, after taking the latal drug he put a handkerchief saturated with ether to his mouth to deaden his sufferings,

RIGHTS OF PEW OWNERS,- in the Superior Court at New Haven, Conn., the owner of a paw in a certain church brought action against its committee for society was in declining circumstances, and as a remedy it was proposed to modernize their house. Under the advice of counsel, the committee of the society caused the edifice to be appraised by three indifferent persons appointed by the society, apportioned the gross amount upon the several pews, and tendered to the respective pew-holders the amount thus apportioned.

The plaintin claimed to recover the value of the pew, irrespective of this approisal. It cost him \$650, and had for several years to the time it was taken from him, rented so as to pay an interest on \$560.

The court decided that the plaintiff was entitled to recover the full value of the pewat the time it was taken, and that the appraisal must be laid out of the case. The annual income, however, was no certain test of the real value of such kind of property, but the circumstances and condition of the society must be taken into consideration. As these were not good in the present case, the value of the pew was assessed at \$300, and judgement given for that amount

and costs.

IXPERHENCE is the Basis of All Real Knowledge.—To SEE and to FEEL is to KNOW, and that which it seen and known must not be controlled. When Galileo ameriment the discovery of new planets, the Aristoteliam reid, "This is impossible." Galileo replied, "Look through my descape, and bahold." This philosophers replade, "We will not look first we should see them." There are no few people new-adays so silly that they will not look at facts leat some prejudice should be disturbed. There present are, however, not runerous, and their simple ity nightes robody but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sarsaparilla rests upon universal experience alone. Without this solid foundation, it never could have attained in widespread popularity which it at present enjoya for value and medicinal afficecy being thus demonstrated by the experience of thousands, it is only necessary to any that science sanctions and verifice the verdict.

Judge M. M. Yoad said, in his "Weekly Messenger," January 6, 1850.

"Dr. Hoofmad's Garman Hatter.—Here is a preparation which the leading presses in the Union appear to be minimized in recommending, and the reason in whylons. It is made after a prescription familished by one of the most celebrated physicians funders in the second of the greatest medical writers Germany has ever produced. He was emphatically the enemy of hambury, and therefore a medicine of which he was the inventor and cubirster may be confidently relied on. He specially trounanched in Liver Combaint, Dyspepsia, Debility, Vertiga, Aridity of the Stomach, Constipation, and all complements arising from a thordered condition of the secondary, the liver and the intestives. Nine Philadelphia arising from a thordered condition of the secondary, the liver and several of the editors speak of its effects from their own inflivedual experience. Under these circumstances, we feel warranted, act only in celling the autonition of our readers to the precent proprietor's (Dr. C. M. Jacksan's) preparation, but in recommending the article to all affilients."
